

This technical drawing illustrates a mechanical assembly in two cross-sectional views. The upper view is a longitudinal section, and the lower view is a transverse section. The assembly is housed within a cylindrical casing (10) with a top flange (14). A central vertical shaft (38) is supported by bearings (30, 32, 34, 36, 42) and passes through a series of components including a central block (40) and a lower block (48). The assembly is secured with various fasteners, including bolts (18, 22, 26) and nuts (28, 30, 32, 34, 36, 42). The drawing includes numerous numbered labels (10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 72, 74, 88, 90, 92, 94, 96, 98, 100) pointing to various components and features.
